About me

stata vs R, test

Rounding

```
round(1.5) =
```

```
round(0.5) =
```

```
round(1.55) =

round(1.55, digits = 1) =
```

Why it

CAMIS today

SAS vs R

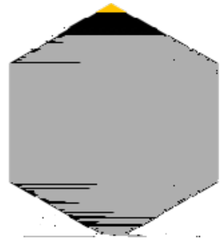
Since CAMIS group has a focus on pharmaceutical industry, the **comparisons** are mostly in SAS vs R!

Example page: one sample t-test!

Agnieszka (our contributor) has an **in-depth analysis** on di#erent implementations on **Wilcoxon Signed**

Quarto has been the **publishing and collaboration**

Collaboration



Possibility to add the Bayesian implementation as well

CAMIS has something for
